EQUESTRIAN SPORT
SYSTEMS

YOU AND YOUR HORSES - THE IMPORTANT THING FOR US

Laake has been creating the ideal environment for your animals since 1930. We are now a member of **CTB Holding**, a global enterprise specialized in agricultural systems.

Our concepts provide everything you need for your horses' accommodation: a stable environment with plenty of fresh air and daylight, doors and partitions that fully cater to horses' needs for social interaction, sufficient room for movement as well as troughs and hay racks that are conducive to horses' natural feeding behaviour. These of course are just a few examples of how we can satisfy your specific needs.

Naturally, all of our products are produced domestically so that you can rely on the very highest degree of quality "**Made in Germany.**"

Our customers from all around the world have come to know and appreciate this for many years now, which is why we maintain several long-term relationships with our client base.

We tailor our products to meet your specific needs on an individual and exclusive basis. And if you are seeking a solution for special requirements and framework conditions, we will always find and implement the optimum solution for you, also in collaboration with our partners.

This brochure has been designed to offer you a brief overview of our products. If you require more detailed information on our extensive range of accessories, have a look at our website www.laake.com or request a personal consultation with one of our advisers.

STALL FRONTS

Better safe than sorry. The workmanship of the material, from door to hinge, has to be correct and of the highest quality. After all, the primary objective is to keep your horses safe from harm.

The well-being of your animals is a fundamental criterion in the production of our products. You can be rest assured that we attach great importance to a rounded design

and therefore use no protruding screws whatsoever. In addition to our standard sizes, we also offer custom solutions tailored to meet your specific individual needs.

Our models are available in hot-dip galvanised and powder-coated versions, with exclusive patinated surfaces and stainless steel. Many of our models are also available with pivoting elements.

PARTITIONS

S *turdy and sophisticated.* You can be rest assured that our partitions are extremely sturdy, thanks to their single-frame construction. We exclusively work with round tubes to ensure maximum safety and protection from injury. All partitions can be combined with various front system models that are pivotable as

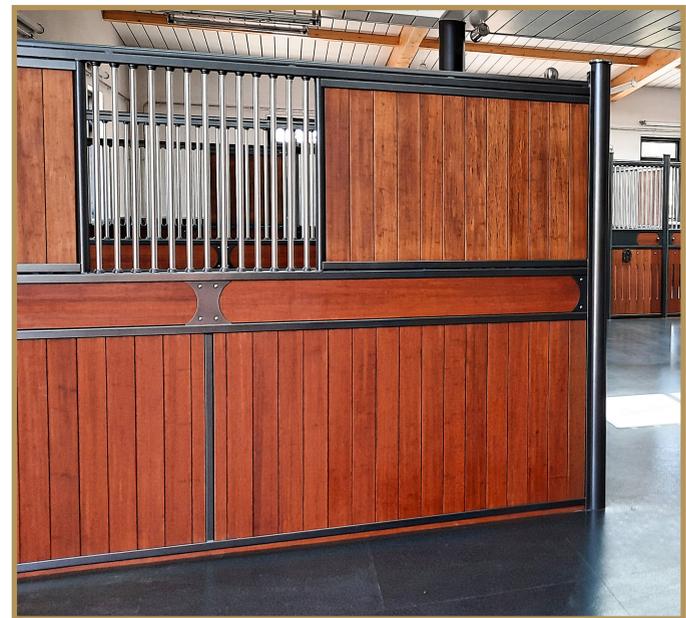

well as removable. We manufacture all of our models in common standard sizes and also provide custom solutions made to measure. And in terms of surface finish, you can choose from hot-dip galvanised, powder coated, special patinated finishes or stainless steel models.

*Thanks to our special Laake
compression-press technique, our partitions
and fronts have no weld seams in grill area.
For a long lifetime.*

EXTERIOR WINDOWS

A beautiful view guaranteed!
An exterior window lets your animals look out and also provides fresh air in the stall. High-quality materials are combined to provide a safe and sturdy solution for your stall. We use insulated glass as safety

glass. In addition, window and grill elements can be opened separately, so that your horse also benefits from fresh air when the grill is closed. You can choose from the many models we offer or also request a customized solution for your specific needs.

GATES

What a gate!
Whether a leaf-gate or sliding gate, you get exactly what you need. Our durable and optically appealing

models are available in various designs. We build exactly the gate you need – no matter what size.

PADDOCK SYSTEM

Our paddock systems combine robust perfection with outstanding design and offer custom adaptation options.

They are made with strong pillars and horizontal tubes, and finished with elegant caps. For specific needs, we integrate swivel elements that increase flexibility and functionality. The systems impress with their long-lasting stability and are tailored to your specifications.

Choose the options that suit you. Natural elegance through wood filling creates a harmonious connection to the environment, and our exclusive patina coating adds more character and individuality. Powder coating ensures stylish durability and is available in almost unlimited color palettes, while our stainless steel fittings impress with timeless elegance and highest quality. Whatever you decide, you are investing in class, ease of maintenance, and aesthetic appeal.

Made in Germany.

RIDING ARENA KICK WALLS

Stylish, natural, and furthermore perfectly crafted: Our riding arena kick walls set new standards!

Discover our exclusive line of riding arena kick walls, refined with bamboo cladding on one or both sides. The upper part of the board consists of an elegant cross board, up to 300 mm wide, with a one-sided rounding as an additional design element.

The back construction is made of special KVH woods and adjustable metal trapezoids. The inclination of the board is 12° and the height from the ground is 1.50 meters.

Enjoy the natural beauty of the wood. To create a consistently aesthetic appearance and reduce the risk of injury, the screw fixings of the planks are hidden and invisible. Observe the refined details and quality of the materials. This is the perfect choice for demanding riding areas. Additional equipment such as folding mounting blocks, inspection flaps, music systems, whip cabinets, seats or storage spaces can be integrated into our boards.

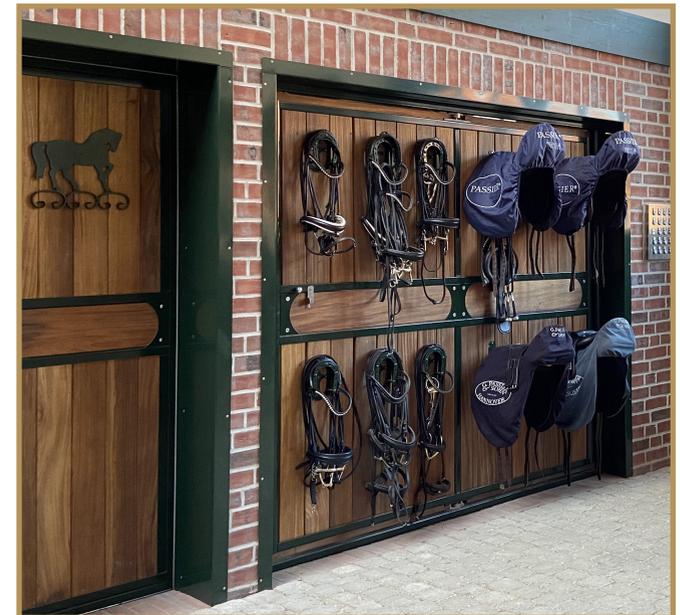

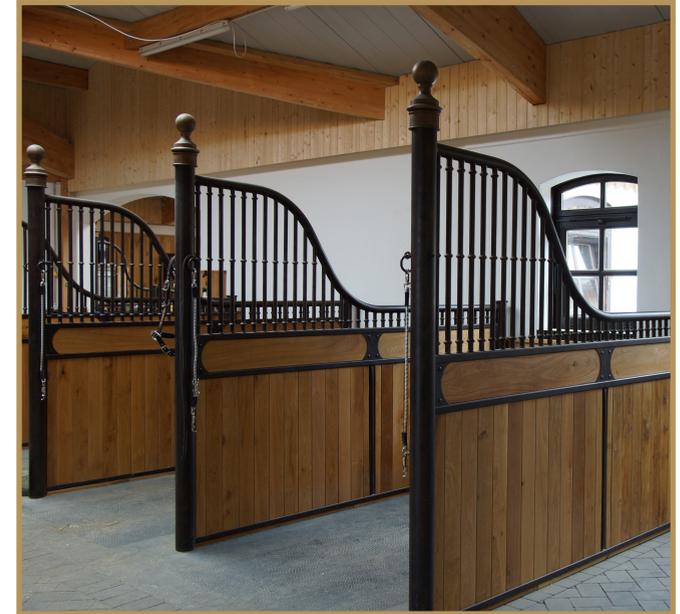

ACCESSORIES

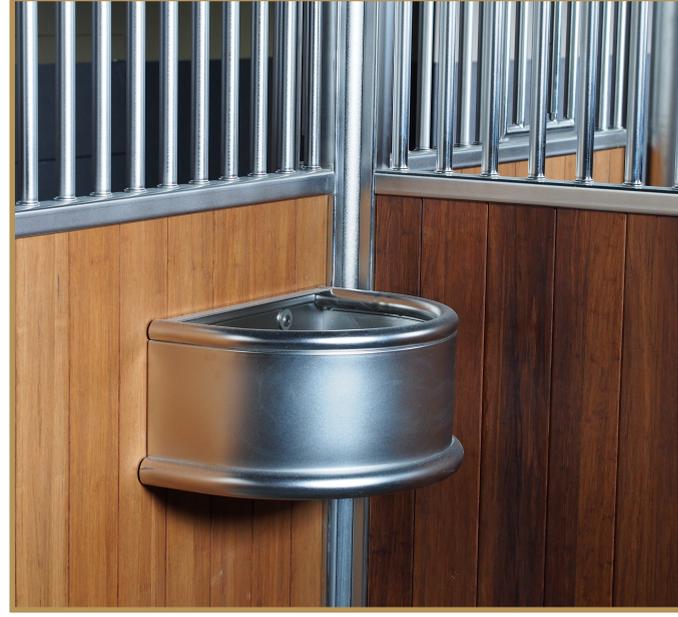

Fully equipped in every way. We are known for our high quality, and this is evident in the perfect craftsmanship of our accessories as well.

For your elegant equines, we have a comprehensive range of accessories to ensure your stable is optimally outfitted.

WE ARE PLEASED TO SUPPLY YOU WITH:

- ▶ Wall cladding in heights of 1.30 m or 2.40 m from various woods
- ▶ Grooming and washing place accessories
- ▶ Exclusive saddle cabinets
- ▶ Feed troughs: galvanized or stainless steel
- ▶ Hay racks: galvanized or stainless steel
- ▶ All drinking bowls from the brand Suevia
- ▶ Blanket and bridle holders
- ▶ Examination stands
